EDUCATION

Btech in Computer Science Engineering

Vellore Institute of Technology, Vellore Tamil Nadu India

06/2020 - 06/2024

Senior Secondary Degree

Army Public School Kolkata

05/2018 - 05/2020

Kolkata, West Bengal Marks-93%

PERSONAL PROJECTS

Personal Portfolio Website (Hosted) (02/2022 - 03/2022)

- My Personal Portfolio Website with Description of my projects + contact info!
- Website Link-<https://rudeultra.github.io/Personal-portfolio/>
- Made by HTML,CSS and Vanilla Javascript with a simple and elegant UI
- Github Link - <https://github.com/rudeUltra/Personal-portfolio>

Kuebiko - A React-based novel Reader and writer website (Full Stack) (01/2022 - 04/2022)

- Implemented the Front-end design with HTML/CSS Styling ,Background-images, Padding , Flexbox, CSS animations + Bootstrap Framework for Navbar and Buttons.
- Designed React Components, Implemented Hooks (useState, useContext, useEffect), Mapping of data + Event handling.
- Basic Back-end with NodeJS (get, post methods). Designed and Handled Databases for Users and Bookcontent using MongoDB and Mongoose.
- GitHub Link Front-end-<https://github.com/Padm0069/Kuebiko>

Drowsiness Detection Software for Drivers Artificial Intelligence (01/2022 - Present)

- Prevents accidents by alarming the driver when he/she feels drowsy
- Made by OpenCV, Python and dlib Library. Simple Interface using HTML/CSS and JavaScript
- <https://github.com/rudeUltra/Awake-Drowsiness-detection-App>

Food Delivery App Made with React.js (06/2022 - 06/2022)

- A simple Food Ordering Website made with ReactJs, HTML and CSS
- Users can add their favorite food items to the cart and order them. (working Back-end)
- GitHub Link-<https://github.com/rudeUltra/food>

WORK EXPERIENCE

Full Stack Web Developer

Software Engineering Project

01/2022 - 04/2022
